PROFESSIONAL SUMMARY

3D Artist and Game Designer with experience in game development, Environment Art, 3D Modeling, Level Design, World Building, and Cinematic Production using Unity and Unreal Engine 5. Experienced in the complete environment production pipeline, including blockouts, asset creation, scene assembly, optimization, and performance improvements. Passionate about creating immersive gameplay experiences through visually compelling environments while collaborating effectively within multidisciplinary teams.

CAREER OBJECTIVE

Seeking a position as a 3D Artist, Environment Artist, Level Designer, Game Designer, or Cinematic Artist, contributing to game development through 3D asset creation, environment production, world building, gameplay-oriented level design, environmental storytelling, and visual composition. Dedicated to delivering high-quality interactive experiences while continuously learning and growing within collaborative development teams.

PROFESSIONAL EXPERIENCE

Salas Games

Level Designer | 3D Artist

May 2026 - June 2026 | Remote
